

What to expect for newborns

Pretty much anything can happen during your newborn's session. It's just one of those things that we can't predict. But, we can share some things with you that might help to put you at ease! If you have any questions just give us a call here at Crystal Clear Images and we will be glad to help.

- 1 It's our hope that your baby will sleep through their session. But, maybe they won't. Don't worry! We recommend that you try and keep your little one awake for 1-2 hours before the shoot. When you arrive, you can feed them and hopefully they'll drift off to sleep. We'll take our time and we have lots of tricks to help get them calm and relaxed. We keep the room warm so your baby is snug as a bug!
- 2 Bring lots of diapers and changing supplies. Yes, chances are that your wee one will wee on our blankets. It's really okay. We're used to it. We wash everything after each session.
- 3 The session will be booked around baby's feeding time. We will ask you to come here and feed baby and then go right into the shoot once there is a full belly. Baby will probably get hungry, and this is normal during the session. I mean, it's so much work being
- 4 cute and posing! We'll let you know if we think you should feed them in hopes that it will help get them back to sleep again.
- 5 We may ask you to step in to help us for a few poses. You see, some of those amazing shots are composites. The safety of your baby is important to us.
- 6 We will photograph baby before we do any of our family portraits. So, we just ask that you sit and relax. Heck, even take a nap if you want! You deserve it! Then, when we're ready we'll have you step in for some family portraits.
- 7 When we're all done you can bundle up your sweet pea and expect to get an e-mail from us when your proofs are ready to be picked up. But, check our Facebook! You might see a few sneak peeks there, too.

Choose a Session

We believe that every family is unique and so are their needs. At Crystal Clear Images we believe in letting our creativity run wild, but also have structure to our methods. Each session may last approximately two hours. We can work with you in your home or in our studio. Our studio is preferred because we have access to so many amazing props we can use. We do understand that there are some families with needs that require us to be in their home, and gladly accommodate. In-home sessions allow us to photograph your family lifestyle.
